

**Declaration Regarding The Use of Vigdu Technologies P-10 / P-100 / P-200 Series**

We hereby declares that the PV modules manufactured by ET Solar are compatible for the use in combination with the Vigdu devices P-10, P-100, P-200 series, produced by Vigdu Technologies LTD to prevent/recover the effect of PID (Potential Induced Degradation) in photovoltaic systems.

We further declare that by following both ET Solar installation & operation manuals and the Vigdu Technologies installation & operation manuals, the combined operation of the ET Solar modules & the Vigdu devices:

- Will not harm the PV modules
- Will not affect the modules warranty.

Note:

ET Solar declines any responsibility for any direct or indirect damages to the installed PV modules, which may be caused by a failure or malfunction of the device.
